Let's get creative.

We've only gone and done it - the immensely popular Super Q with it's massive customisable work surface and ideal seating arrangement has now got even better.

Brimming with bundles of storage space, thanks to an integrated set of mobile drawers, this versatile cabinet comes complete with various extension leaves giving a variety of ways to customise the workspace, making the Super Q Mk-2 the perfect combination of function and style.

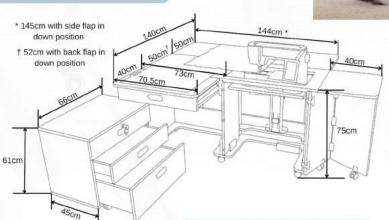

Featuring new stylish inlaid handles and lockable top drawer & bi-folding door, which closes to hide your sewing machine and keep your studio looking tidy

Delivered fully assembled

A place for everything and everything in its place

Horn's Craft Cube organiser is a versatile, 4-sided storage cabinet, designed to keep your sewing and crafting space clean and tidy.

Features includes 18 thread spindles, 42 removable thread and bobbin holders, rods to hang ribbon (with extra storage behind them), heavy-duty castors for easy mobility, and adjustable shelves to store fabric, books and other sewing notions.

The perfect craft organiser to complement to your sewing cabinet or quilting studio.

The charming Compact Hi-Lo will offer a new dimension to your sewing projects

Sporting a clean white, hard-wearing open grained finish, this smaller sister to the Hi-Lo MK-2 offers one main advantage over it's bigger sister: it's able to fold down much smaller. The Compact Hi-Lo not only has the ability to be set at different heights, but can be used in either a fully or half open state. With all these features it's a must-have for your sewing room.

Self assembly required

SUPER Q

A truly fabulous unit which will answer all of your sewing needs

The Super Q quilters cabinet includes everything you could need for a practical and convenient workspace - one that inspires creativity. With a single drawer integrated into the main cabinet and a huge separate 3-drawer caddy, it ensures everything has a home, lending itself perfectly to a productive and organised creative space.

With a fully customisable worktop, boasting a huge work area at the back of the machine which can be extended by lifting the leaf up when needed and folded back down when not.

66 This sewing cabinet is indeed a dream and is just perfect for quilting. I have a Bernina 750 and a Pfaff Creative Performance, both of which fit beautifully

into my Super Q.

Need a chair? See pg.38-39 for more information

Delivered assembled

Fitted with our Maxi-lifter opening (type 1942) which is capable of taking virtually all domestic sewing machines on the market old or new!

Please note: due to its size, it may not be possible to take this unit up an internal staircase. See pg. 43 for more details.

QUILTER'S DELIGHT MK-2

The original quilting table for you and your machine

The Quilter's Delight MK-2, although the original cabinet of this design, is now the smaller sister of the Super Q & Super Q MK-2. It is still fitted with the Maxi opening (1942) so is able to accommodate some of the largest sewing machines, but in an overall smaller space.

The Quilter's Delight sits on heavy-duty castors for easy mobility and increased stability, and features 3 collapsible leaves which, once opened, give the support all around the user for even the largest projects.

It's a great unit for those with a smaller area to fill and is easier on the pocket.

Delivered fully assembled

Need a chair? See

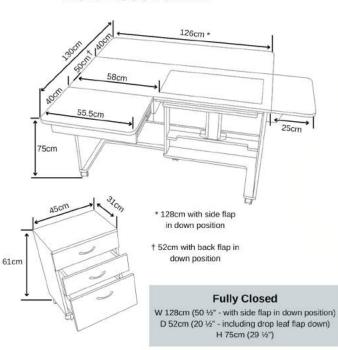

pg.38-39 for more

information

Gives a large, flat area to cut out or piece on when the machine is stored away.

HORN CUSTOMER

Fitted with our Maxi Air-Lifter opening (type 1942) which is capable of housing most domestic sewing machines available, old and new!

Inset cut to fit your machine included!

Please note: due to its size, it may not be possible to take this unit up an internal staircase. See pg. 43 for more details.

Our most popular cabinets just got better...

Imagine a place for everything, and everything in its place. The newest editions of our incredibly popular Eclipse XL & Nova XL units give you just that.

On first sight you'll be impressed by how solid they are, opening to reveal storage for, not just one, but two machines, and plenty of removable transparent stowage ideas too.

Your machine is seated on our 3-step Air-lifter, and both are fitted with out largest Maxi opening (size 1942), which can accommodate almost all domestic sewing machines. When fully opened they offer well supported work areas either side of the user and to the rear of the machine to prevent material falling to the floor. Gone are the days of chairs placed around you to hold your fabric up!

Able to store an overlocker & a sewing machine!

Oak

Transparent, removable door storage bins that sits under one of the expansion leaves.

Extendable working areas to the side and rear of the cabinet have a sturdy design with supporting double gate legs for the rear leaf and an extra support arm below the left hand leaf on the Eclipse XL, and the right hand side on the Nova XL.

- A lockable front door secures the whole front of the cabinet.
 - An acrylic flatbed inset plate is supplied with these models, cut to fit your specific sewing machine.

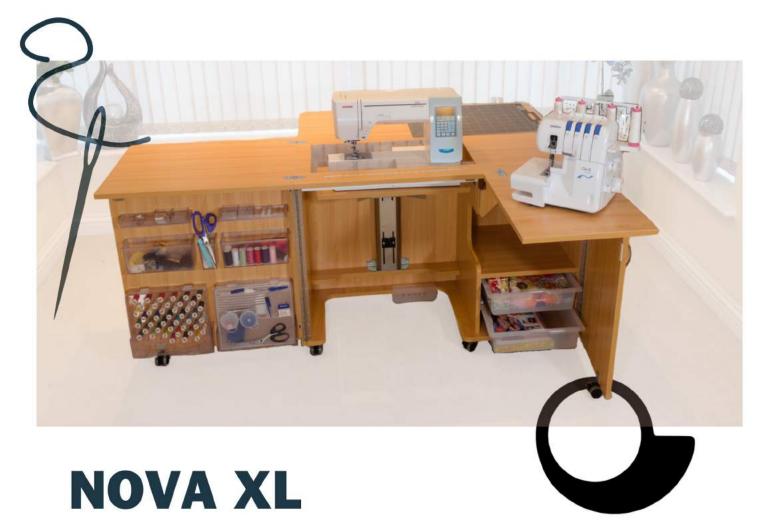

Need a chair? See

pg.38-39 for more information

Delivered fully assembled

The twin sister to our Eclipse XL

The Nova XL offers all of the space and features of the Eclipse XL, but mirrored in order to accommodate various room layouts.

We know that not every sewing space is the same, so we've developed these cabinets to better suit your needs no matter how your room is laid out.

This cabinet features the same refreshed removable door bin design, flush mounted hinges and lockable door as the Eclipse XL.

NOVA XL

Have a visitor, and need to tidy away quickly? Both the Eclipse XL & Nova XL can be folded down in seconds, even with projects partially finished. Once locked with the key you're left with a compact, attractive cabinet. No one would ever know how much it holds.

GEMINI

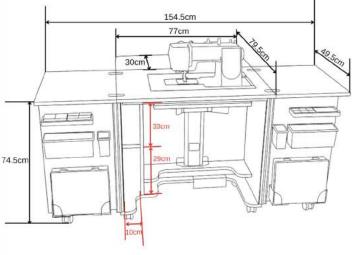

The small cabinet with big ideas

A surprisingly compact cabinet, only 2.5ft x 1.5ft when closed, but will fit many of the larger sewing machines available on the market today.

Not much bigger than the Cub Plus, but with a more central sewing position that gives the user more support on both sides as well as to the rear of the machine.

The Gemini also features improved, removable door storage and one of our flush mounted sewing machine insets (size 1992) is included, giving the user an overall more comfortable sewing experience.

66

Horn's service was outstanding from start to finish. I'm very happy with my Gemini. Would recommend Horn to everyone.

HORN CUSTOMER

Delivered fully assembled

Fitted with our long lifter opening (type 1992) which is capable of taking many of the newer (and older) machines on the market but not all of, more particularly, the larger domestic sewing machines. If your machine is one of these, you may need to look from the Gemini XL up. Give us a call to check for sure if your machine fits this model.

For more delivery info please see pg.43 for details.

GEMINI XL

Our most compact cabinet, but able to house almost all of the largest of sewing machines

The Gemini XL is the big sister to the Gemini. In addition to all the benefits of its little sister it has the Maxi opening (size 1942) and a super handy space-saving, pullout rack system. This unique new addition gives a surprising amount of extra storage potential.

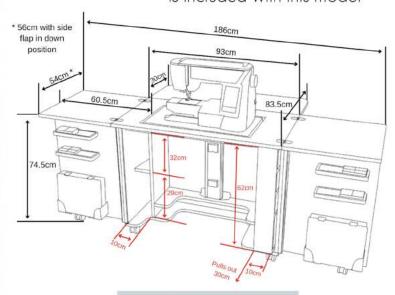

Like the Gemini, the Gemini XL features a central sitting position, which allows freedom to access every part of the cabinet from your chair. This sitting position, and the extra depth, gives spacious legroom whilst using even the largest of sewing machines.

Fitted with our 3-step, push down/release Air-Lift mechanism. Fitted with our Maxi opening (size 1942), which makes this our smallest unit capable of housing virtually all of the largest sewing machines. Old and new!

One inset, cut for your machine, is included with this model

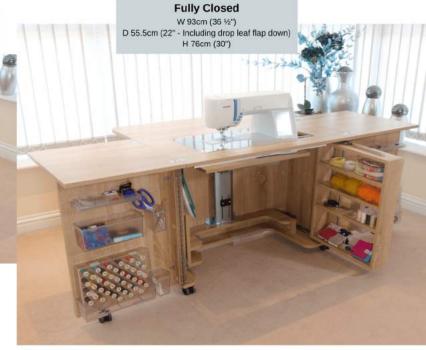

Delivered fully assembled

Need a chair? See pg.38-39 for more information

As it's fitted with our 1942 opening, this unit is able to hold the larger, longer armed sewing machines such as the Pfaff Icon, Bernina 700/800 series, Janome Horizon range amongst others. See page 42 for more information on our insets and inserts.

CUB PLUS

Extra stable, open base construction; 5 heavy-duty lockable castors for easy mobility and the worksurface is fitted with flush mounted hinges to prevent snagging

Super compact and as popular as ever

The latest version of this cheeky little cabinet is now made with extra depth, which means you now have an increased worksurface, greater legroom and enhanced stability.

60cm

Need a chair? See pg.38-39 for more information

perfect for compact sewing areas. It's fitted with our 3-step Air-Lifter, removable transparent door storage for your accessories, and permanent housing for your sewing machine. The benefits of a full-size sewing cabinet, with the luxury of an extra small size.

Now fitted with our new flush inset style template (size 1972). This cabinet has our standard size opening which is capable of taking many types of sewing machines, but not all. If your sewing machine is one of the larger domestic machines you may need to look from the Gemini up. Give us a call if you'd like to check for sure if your sewing machine fits this model.

Compact, easy to store, easy to take with you

This high quality, easily portable (it has wheels too!) sewing table is ideal for use in any location, be it at home, a retreat, club, or class.

Offering you our largest Maxi opening (size 1952) and, fitted with the 2-step manual mechanism, this table allows both tabletop and flat bed sewing positions for virtually all domestic sewing machines old or new.

When not in use the table folds down quickly to a handy $4 \frac{1}{2}$ " in depth, making it easy to store under a bed, behind a door or almost anywhere you might store an

ELEMENTS

THE ELEMENTS

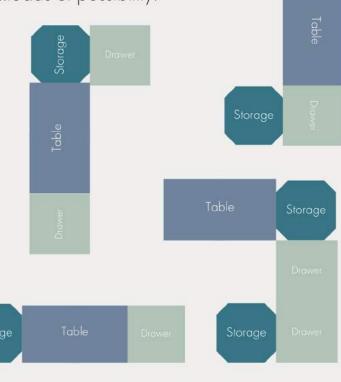

It's entirely up to you...

One table, one drawer unit, one storage chest...loads of possibility!

The clever modular design gives many different configuration possibilities allowing it to fit perfectly into your home. When assembled each unit can be fixed together (with fixings screws provided) to give a sturdy continuous surface.

opening giving it the ability to fit virtually all of the largest domestic sewing machines.

SEWER'S VISION

Did someone say worksurface? The Horn's Sewer's Vision height adjustable sewing table is a 2-in-1 sewing and cutting workstation, perfect for even the largest projects in your growing sewing studio.

The Sewer's Vision features a 2-step manual lift for free arm and flat bed sewing, and an unbelievable 64" x 36" of crafting worksurface to keep any of your projects from falling to the floor.

Set your perfect working height simply with just the turn of a handle and effortlessly fold the worksurface vertically for easy storage when not it use.

This table can be operated both in a standing position, which is becoming increasingly popular, or it can be easily adjusted to a sitting position.

Delivered fully assembled

Unrivalled legroom!

- 2-step manual lift mechanism allows you to work at both free arm and flat bed sewing positions.
- Fitted with our Maxi inset opening (size 1952), which allows a totally flush sewing surface. Wonderful!
- Able to accommodate virtually all sewing machines on the market.
- Expansive work surface keeps large projects from pulling or laying on floor.
- Transition from sitting to standing with just the turn of a handle, moving the table from just 72cm all the way up to a mighty 102cm high.
- An acrylic flatbed inset plate is supplied with this model, cut to fit your specific sewing machine.
- 7 Tabletop flips on its side with the pull of a lever, allowing the table to be stored away or used as a design wall.
- 8 Tough, knock resistant ABS edging surrounds the 1" thick table top for increased durability and rounded corners to prevent snagging of material, or injuries.
- Mobile on 4 large, lockable, semiindustrial castors.

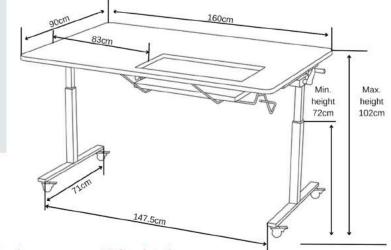

Handle folds neatly away

The Tall Hobby chair is the perfect companion for this table. See pg.39 for more information

Available in:

HI-LO MK2

The perfect table for all craft & sewing applications!

The Hi-Lo MK2 offers you a huge space to get creative. Its easy height adjustment allows you to quickly find your perfect standing height. Rounded knock-resistant corners prevent snagging and possible injury.

Tilting the table with the release of a lever gives you your floorspace back, and with the ability to match in with existing Horn furniture, makes this a great addition to your sewing room.

The Tall Hobby chair is the perfect companion for this table. See pg.39 for more information

Air-lift assisted height adjustment with the pull of a lever!

The Huge doublesided Horn cutting mat is a massive 1.5m x 1m. This optional extra is the perfect companion to the Hi-Lo MK-2

For more delivery info please see pg.43 for details.

height 120cm

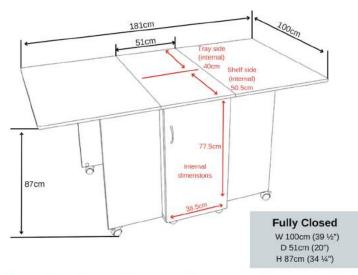

Min. height 78.5cm

A sewing and crafting table like no other

Horn's largest table is the perfect addition to your sewing and crafting studio. Horn's timeless design and elegant fixtures provide storage, convenience and function – along with an expansive worksurface and 8 large, heavy duty and lockable castors to provide excellent stability and easy mobility.

Even better – the 2 side leaves fold down for easy storage when not in use. With additional integrated cupboards on <u>both</u> sides you can pack away your machines on one side, and accessories in 4 large translucent storage trays in the other. Perfect!

One side is fitted with trays, for materials/notions whilst the other can store your machines with the help of a shelf

- Multi-functional table with expansive surface and dynamic storage.
- 2 fold out leaves create a huge 70" x 40" cutting surface for even the largest of projects.
- 8 large lockable castors for stability and easy mobility.
- Table folds down into compact space (20" x 40") to fit in most rooms when not in use.
- Optional 1.5m x 1m Huge Cutting Mat available.

Another additional feature is rounded corners to ensure your projects are kept safe from snags.

The Maxi hobby table is perfect. It is extremely well made and a very solid, sturdy work table. 99

EXTENSION TABLES

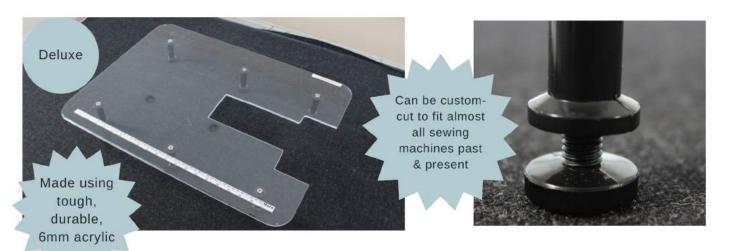

This portable adapter allows you to extend the worksurface of your sewing machine

Our custom-cut extension tables are available in two sizes: Standard and Deluxe. The Standard table extends your sewing area up to 22"x113/4" Whilst the Deluxe increases it to a useful 24"x18"

Fitted with adjustable legs that can be adjusted to level the table perfectly with the arm of your sewing machine.

Enjoy optimum comfort with our Hobby Chair, packed with adjustable features to ensure you sit well every day.

As any hobbyist will tell you the most important things you'll need when sitting for long periods is comfort, good support and a correct sitting posture. The Horn Hobby Chair offers all these and more. Featuring a 3 lever mechanism you can easily adjust your sitting position by changing the height, rake, seat tilt and back height positions...just like a luxury car seat.

The Horn Hobby Chair features a sculptured, deep, luxuriously padded seat and back with an approved contoured lumbar support to fit perfectly to your body. It can be quickly raised or lowered to your desired position by means of an air assisted elevator and is fitted with a smaller castor base to allow you to fit easily into your sewing cabinet.

TALL HOBBY CHAIR

Recommended for taller pieces such as HI-LO Mk-2, Sewers Vision, Maxi Hobby table, Cut easy Mk-2 and the new Compact Hi-Lo!

All of the features of the Hobby Chair, but taller! This chair isn't specifically for tall people, we have developed it so that you are able to sit at either a sewing cabinet height of (approx. 29-30ins) or sit at a standing height surface of (approx. 35-36 ins) but we realise that people are all different so these heights aren't perfect for everyone and might not work for you. If sitting at both of these types of unit is a definite stipulation of your purchase then it'd be best to try to sit on one first, to try it out, before purchasing it.

SCISSORS & CUTTING MATS

A cut above the rest...

These incredibly hard, high quality, German stainless steel scissors are made to exacting standards and cut all the way to the tip. They're a pleasure to use time & time again.

All of our scissors are built to exceed our customer's expectations, boasting a level on the Rockwell hardness scale of 55.

These scissors are ideal for multi-purpose craft use and for effortless use on fabrics.

You'll never want to cut with anything else!

All mats are double-sided, one side metric and the other imperial.

Horn mats are made with the highest standards.

Our convenient, carryhandle cutting mats
come in 2 sizes; A1
and A2. These top
quality, mats are selfhealing with a robust
3cm thickness.

As every crafter, sewer or creative enthusiast well knows, a quality cutting mat is essential in any sewing room! Protect your furniture and your dedicated workspace with a Horn cutting mat, available in 3

sizes.

Our huge cutting mat is tailor made to fit our HILO Mk2 but can be purchased separately for use on a table of your choice. At a whopping 100x150cm and 3cm thick, it is ideal for all types of cutting, including rotary.

AIR-LIFTER

You need never lift or carry your sewing machine again.

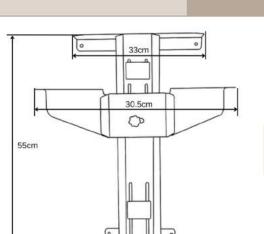

It couldn't be easier or more effective, simply push down on the top of your sewing machine and it will lift your machine to the desired position for you.

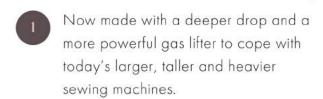

- Our lifter system can be adjusted to fit almost all domestic sewing machines, old or new.
- The 3-step air lift allows you to go between free arm, flat bed and storage positions.

Stored position

- 3 adjustable stop positions with automatic push-down release mechanism.
- 4 Durable zinc plated finish on the mast.

Inset/Insert position (flat-bed)

Table-top position (free-arm)

- Solid movement on 8 steel ball roller bearings.
- Can be purchased separately for a project of your own.

INSERTS AND INSETS

Bought a new sewing machine?

You'll need one of these!

New flat-bed inserts or insets are available in 2 forms; uncut to provide a filler for the aperture/opening or cut to fit around your specific sewing machine. There are many variations of insert/inset so please have the opening measurements of your cabinet to hand when placing your order.

The information we require when placing your order is as follows:

- The make/brand and model number or name of your sewing machine.
- · The length and width of the aperture/opening in the top of your cabinet.
- The type of fitting you require i.e. insert (which has a lip around the edge to keep it in place and
 prevent it from falling through the opening) or an inset (the newer style with no lip which
 typically sits on a ledge or on holders inside the opening).
- Any information labelled on your old insert/inset as this will help us to provide you with the correct size.
 For further assistance, please contact us via info@hornfurniture.co.uk or 01793 834304

Below are the different types of Insert/Inset that we offer:

Inserts (all prices include postage and packaging)

1925 (Hide-away MK1) £46.95 (300 x 285mm approx.)

1927 (Standard) £59.95 (480 x 285mm approx.)

1972 (New Cub inset) £74.95 (480 x 285mm approx.)

1992 (New Gemini Inset) £74.95 (530 x 285mm approx.)

1942 US (New Element) £74.95 (615 x 320mm approx.)

1928 (Only suitable for 480 & 530mm openings) £59.95

Flatbed extension table adapter with adjustable legs; cut to fit your sewing machine. Page 37. (560 x 300mm table size approx.) £89.95

Deluxe flatbed extension table adapter with adjustable legs; cut to fit your sewing machine. Page 37. (600 x 450mm table size approx.) £139.95

Please note: We can only make insets / inserts to fit Horn sewing cabinets sold here in the UK.

DELIVERY

Horn pride themselves on delivering orders within a 4-5 week timescale, utilising our own drivers and vehicles. If we encounter exceptional circumstances and cannot meet this delivery timescale, we will inform you in advance. Once your order is ready to be dispatched, we will inform you a minimum of 3 days prior to delivery and provide you with a 3-hour delivery window.

Should you require a 7-10 day delivery from available stock, please advise us when you place your order. We will book an external courier at an additional cost, however installation will not be available when using this service.

Note: Installation is not available for deliveries made in Zone C on the map shown below. Contact us via info@hornfurniture.co.uk for more information on this service or for a tailored quote.

Additional delivery notes:

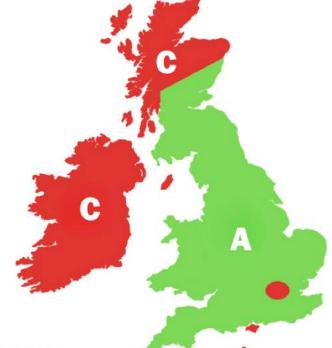

- Our drivers carry out lone-working and therefore, carrying cabinets up internal staircases is performed at the drivers discretion.
- If you would like to confirm in advance that your cabinet can be carried upstairs, please email us
 photographs of your staircase and we'll confirm if it is possible.
- We will not remove a Horn cabinet from its box to transport it upstairs.
- Please ensure stairways are free of obstruction prior to delivery.
- Unfortunately, our drivers may not be able to carry the Super Q Mk2, Super Q or Maxi Hobby Table
 up internal stairways due to size. Please call us on (+ 44) 01793 834304 when making your order to
 discuss the delivery.
- If you are unsure whether the product you wish to order is compatible with your sewing machine please call us on (+ 44) 01793 834304 or email us via info@hornfurniture.co.uk

Our delivery fleet providing exceptional delivery and installation service.
